

Name: _____

Use the rectangular prism. Think of each edge as part of a line.

1. Name a segment parallel to ST .
2. Name a segment skew to ST .
3. Name a segment perpendicular to ST .
4. Name a plane parallel to plane $STXW$.

Lines g and h are cut by transversal w . Name one pair of each type.

5. corresponding angles
6. alternate interior angles
7. alternate exterior angles
8. consecutive (same-side) interior angles

Answer each question. Explain your reasoning.

9. Classify $\angle 2$ and $\angle 7$ in the same diagram.
10. True or false: two lines in space that do not intersect must be parallel.
