

Geometry 2.3 — Homework Answers

Odd-numbered exercises. Check your work against these; bring questions on the evens to class.

1. Two Point Postulate.
3. A line: at least two points. A plane: at least three noncollinear points.
5. Sketch: two planes crossing along a labeled line t .
7. Valid — C and D lie in plane S, so the line containing them lies in the plane.
9. False — the points must be noncollinear.
